

Toilet Seat Raiser

Purpose

To promote independence with getting on and off the toilet.

Features

- Arm rests assist with getting on and off the toilet.
- The height of the toilet seat raiser can be adjusted to make it easier to sit and stand.
- Non slip feet
- Splash guard which prevents spillage

Installation

- Adjust frame to the appropriate height by depressing the silver button and sliding the leg pieces up or down.
- Place over the toilet. Ensure all four legs are in contact with the floor to avoid rocking or unsteadiness.

Maintenance

- The frame should be checked monthly for signs of rust, cracks, changes in the appearance of the rubber stoppers, or damage/bending in the metal. If any of these are present, stop use and contact your supplier.

- This product should be cleaned regularly with warm soapy water unless otherwise stated by the manufacturer.

Safety and precautions

- Use two hands when transferring on and off the toilet seat raiser to avoid tipping.
- This equipment is for sitting only. Do not stand on this equipment.
- You should only use the equipment in the environment in which it is prescribed.
- It is not recommended for use by other people.
- 100kg weight limit unless otherwise stated by the manufacturer.
- Ensure the silver buttons on the height adjustable legs have slotted into the correct holes before sitting.

Your therapist has recommended the appropriate height for your Toilet Seat Raiser as:
