Mobile Shower Commode,
Transit, 457mm/18inch Wide,
Aluminium

The attendant propelled mobile shower commode is lightweight and maneuverable to allow for easier toileting and showering whilst the user is seated. The chair features a lightweight, silver painted aluminium frame, which provides a rust free, high strength product. Brakes on all four wheels for security, the swing away, detachable footrests offer comfort and support whilst being transported and the armrests can be flipped back to facilitate side transfer. This chair can be used in a shower cubicle or wet room, used as a commode or over a standard toilet bowl. The front of the seat is cut-away to facilitate personal hygiene and a set insert is provided for comfort during transport. Supplied with a square commode pan as standard. The detachable back enables the shower commode chairs to be partially dismantled for more compact storage.

Side table does not tilt, suitable for drink and food

Fully height adjustable

"C" base shape fitted with four castors enables close positioning to the bedside or chair

Stylish cream colour finish

Powder coated mild steel frame construction

BRBCA01

Yes

Self Help Poles/Ladders

Bed Cradle - Adjustable Height

The bed cradle is designed to keep bed linen off sensitive areas of the patient's lower leg or feet by creating clearance between bed linen and the mattress

Height adjustable 440 - 640 mm

The lower frame slides underneath the mattress, securing the cradle to the bed, while the upper frame is positioned horizontally over the lower limbs

Bedding is then placed over the frame to remove any weight or pressure from the sensitive limbs below

Height adjustable frame allows the user to customise the space between mattress surface and bedding

MA4WPD	Yes	4 Wheel Walker -PUSH DOWN BRAKES	<p>To provide support and stability whilst walking. Seat lifts up to allow for storage in basket below. The unique brake system is activated by pushing down on the handles or whenever you sit on the seat. The robust yet lightweight alloy frame has tube-in-tube construction for increased strength and longer lifespan. The castors are made from solid rubber, making them free from punctures. They are designed for easy operation and good manoeuvrability especially on indoor surfaces. Their slightly smaller size makes them especially good for negotiating doorways or tight spaces. The orthopedic moulded handgrips are designed to contour entirely to your hand, minimising stress or strain to the wrist. The height of the handles is easy to adjust, with an extension range of 13 cm to ensure that the handles can be set to best match the height of the user.</p> <p>With a compact fold down design, this walker is easy to transport or store when not in use.</p>	<p>Suitable for people up to 130 kilograms in weight. Cushion ROHO Quadtro 8 cells
x 9 cells HP (fits 14x16 W/C)

The Quadtro Select cushion is made for individuals who require superior pressure relief and protection from soft tissue breakdown. Its high-profile nature facilitates blood flow via advanced shape-conforming technology.

The ROHO Quadtro Select is lightweight, easy to transport, and easy to clean (just use soap and water). It features four individual sections that are uniformly inflated through a single valve. A simple push of the ISO FLO Memory Control knob locks air into each section, therefore filling them to maximum capacity. The ROHO cushion is also available in varying dimensions to accommodate for users' individual seating needs.

Cushion Cover Included

This seat cushion comes with a durable cover that reduces unnecessary friction and shear. Spill something on your seat? Machine wash the cover in cold water for an easy clean up.

Cushion ROHO Hybrid Elite
460mmx460mm (fits 18x16
W/C)

Combines ROHOs Air Flotation
qualities and Jays base technology
Ideal for clients who require moderate
to high pressure care and positional
support needs
Contoured foam base improves
alignment of the pelvis and lower
extremities, enhancing sitting posture
and function
Air cells are interconnected and their
unique shape promote blood circulation
to facilitate pressure prevention,
healing and relief
Flexible and adjustable air cells adapt
to patient contours and reduce shear
forces while transferring or
repositioning
Durable neoprene construction is soft
to suit skin sensitivity, and is easily
cleaned
Jay foam base is made from fluid-
resistant closed cell foam for additional
stability, assisting in safer wheelchair
transfers
Two-way stretch cover with encased
comfort foam is machine washable
Supplied with pump
Cushions is available with fluid resistant
cover

PCICMLS	No
PCICFLS	No

iCare Long Single Mattress - MEDIUM

Middle of the range, the IC20 proves to be popular for most. The medium feel provides a soft feel but excellent support.

How pressure care works with the IC20: This IC20 medium mattress is heat and pressure sensitive which means that as it gets warmer it becomes softer. So when there is a pressure point developing which usually gets hot and enflamed, this area of the mattress will become softer which allows the blood to flow freely again.

Long Single (2030 x 900 x 200)

iCare Long Single Mattress - FIRM

The IC15 firm mattress offers support and comfort. Firm feel makes it easier for turning.

Long Single (2030 x 900 x 150)

Yes

Tap Turner - Red/Blue

The Homecraft Tapturn Turners are strong moulded turners which simply hook over the top of a 'X' type tap, to make it easy to turn. They are supplied as a red and blue pair for hot and cold taps.

Length 135mm
Width 47mm

DLAHHA8

Yes

Non Slip Matting

A roll of versatile soft material that can be used on any surface to help stop items from moving, or to protect against scratches.

Comes in a roll (size 1000 mm long by 300 mm wide) and can be cut to size with household scissors.

This non-slip matting has a slightly spongy texture which prevents items moving or slipping on almost any surface.

Place a piece of matting on your table or bench, under trays or when preparing foods - you can even use it under your floor mat to help stop it sliding. Also great to prevent unwanted scratches on any surface. Try wrapping some around a jar lids to improve your grip when opening. The unique plastic material won't fray and and simply wipes clean with a damp cloth - or throw it in the washing machine.

DLATM01	Yes	Tray Mobile		
		Trolley Walker - Adjustable Height	<p>Includes clip-on plastic trays that can be removed easily for cleaning.</p> <p>Can be used with or without trays or it can be used as a table.</p> <p>Rails on tray edges prevent items from slipping off.</p> <p>Lockable hand brakes mean this trolley can also be used as a walking aid.</p>	
			<p>Overall Width: 585mm</p> <p>Overall Depth: 560mm</p> <p>Handle Height Range: 755mm - 905mm</p> <p>Wheel Diameter: 150mm (6")</p> <p>Maximum User Weight: 150kg</p>

Cordless Kettle Tipper

Suits most cordless kettles.

Weight: 1kg

There is a metal plate that secures the base of the cordless kettle and a frame with a Velcro strap to keep the upper part of the kettle in place.

A cut out at the foot of the tipper allows cups to be positioned as close to the kettle as required.

The frame has a built-in back stop to prevent spillage if the kettle is accidentally released during use.

DLAKA16

Yes

Uccello Kettle Tipper

The Uccello Tipping Kettle was designed using the innovative and unique PowerPour technology which means the user can safely pour boiling water without removing the kettle from its cradle by just tilting the kettle.

1.5L capacity

Its ergonomic handle makes it comfortable to use for people with arthritis, grip weakness, or hand injury. The kettle features a wide spout and large hinged lid to easily fill with water. The water level indicator assists the user to ensure it isn't overfilled. The base is non-slip and weighted.

The Kettle has a stainless steel heating element, power-on light and auto shut-off with overheating protection.

This product is available in Black & White or Red & White.

DLAKA05

Yes

Jar & Bottle Opener - Mighty Lever

The Jar and Bottle Opener has a flexible stainless steel band which is fitted around a lid, and then clamped tight using the screw at the end of the handle. The handle can then be used

Suitable for tops 20-110mm diameter. Weight 88g.

Wrist Braces Roylan D Ring Small
Left

Wrist Circumference
14.6cm to 16.5cm
Length 16.5cm

The right choice for high-compliance treatment of arthritis, carpal tunnel syndrome, tendonitis and other wrist disorders. Prevents unwanted flexion or extension, yet allows unobstructed motion of the fingers, thumb. Non-elastic circumferential design for easy application and for firm, evenly distributed pressure without restricting circulation. Protective padding lined with cotton stockinette (except for white) D-ring closure system for simple application, removal and customized tension control. A double layer of stockinette under closures cushions straps. Forearm length is proportional to brace size. Removable, adjustable aluminum bar for additional support. Machine wash and air dry. Latex free.
